

Polaris RZR RS1 Roof Installation Instructions

Parts Included:

- (1) Tinted Polycarbonate Roof
- (6) 1-3/4" Stainless Steel Clamps
- (8) 1/4"-20 x 1" Stainless Steel Black Oxide Bolts
- (8) 1/4" - 20 Stainless Steel Nylock Hex Nut
- (8) 1/4" Stainless Steel Neoprene Bonded Washer
- (2) Rubber Nuts
- (4) Rubber Cushion Strips

Installation Instructions:

1. Place clamps on cage at locations shown in the diagram
2. Install Rubber Cushion Strips on the top of the cage to eliminate vibration.
3. Place roof in position and line up clamps with the holes drilled in the roof.
4. Install washers onto the bolts and then insert them through the roof and clamps. Thread the nuts onto the bolts.
5. Make sure roof is lined up and in place before tightening all nuts and bolts.
